

The Motivation Rough Terrain Wheelchair

Long and stable durable chassis

Pneumatic tyres with thick inner tubes

Height and angle adjustable footplates

Durable chrome finish pushrims

Folding, adjustable solid backrest

Comes with pressure relieving cushion

Quick release 26" rear wheels

Safe or active rear wheel position

Suitability Guide

- Long wheelbase and large castor wheel provide extra stability and easy propulsion over rough terrain
- For users with a range of mobility impairments, who lead an active lifestyle
- Large 26" rear wheels with adjustable safe or active position facilitate efficient self-propelling or easy pushing
- Seat depth and pressure relieving foam cushion can be easily adjusted to fit individual users
- Solid padded backrest folds for storage and is height and angle adjustable to optimise user function, postural support and comfort
- Removable armrests facilitate transfers
- Highly adjustable footplates with toe and calf straps for a safe, comfortable foot position
